	EMERGING	SECURE	DEEPENING	MASTERING
Term 1	<p>I can:</p> <ul style="list-style-type: none"> ❑ Start a question after I have asked for help ❑ Identify the method needed to try to get to a solution ❑ Begin to use different methods which can lead to the same result ❑ Identify when my answer needs units included 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Start a question by myself without having to ask for help ❑ Work by myself to complete a method and arrive at the correct answer ❑ Identify the most efficient method to get a solution ❑ Include correct units for my answer 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Show all the appropriate steps in order to arrive at a correct solution. ❑ Present my method and answer clearly ❑ Use a skill in order to answer simple questions drawing on more than one topic ❑ Include correct units in all my answers 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Present my solution clearly and accurately (including units) ❑ Use a skill in order to answer more complex questions drawing on more than one topic ❑ Apply a skill in an efficient method for any type of question
Term 2	<p>I can:</p> <ul style="list-style-type: none"> ❑ Start a question after I have asked for help ❑ Identify the method needed to try to get to a solution ❑ Begin to use different methods which can lead to the same result ❑ Identify when my answer needs units included 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Start a question by myself without having to ask for help ❑ Work by myself to complete a method and arrive at the correct answer ❑ Identify the most efficient method to get a solution ❑ Include correct units for my answer 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Show all the appropriate steps in order to arrive at a correct solution. ❑ Present my method and answer clearly ❑ Use a skill in order to answer simple questions drawing on more than one topic ❑ Include correct units in all my answers 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Present my solution clearly and accurately (including units) ❑ Use a skill in order to answer more complex questions drawing on more than one topic ❑ Apply a skill in an efficient method for any type of question
Term 3	<p>I can:</p> <ul style="list-style-type: none"> ❑ Start a question after I have asked for help ❑ Identify the method needed to try to get to a solution ❑ Begin to use different methods which can lead to the same result ❑ Identify when my answer needs units included 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Start a question by myself without having to ask for help ❑ Work by myself to complete a method and arrive at the correct answer ❑ Identify the most efficient method to get a solution ❑ Include correct units for my answer 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Show all the appropriate steps in order to arrive at a correct solution. ❑ Present my method and answer clearly ❑ Use a skill in order to answer simple questions drawing on more than one topic ❑ Include correct units in all my answers 	<p>I can:</p> <ul style="list-style-type: none"> ❑ Present my solution clearly and accurately (including units) ❑ Use a skill in order to answer more complex questions drawing on more than one topic ❑ Apply a skill in an efficient method for any type of question

Term 3

Term 2

Term 1

	EMERGING	SECURE	DEEPENING	MASTERING
Term 1	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Describe at least one step needed towards getting a correct answer <input type="checkbox"/> Identify that an answer is incorrect in a worked solution <input type="checkbox"/> Correct mistakes is in a worked solution 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Explain verbally the method needed to reach a correct answer <input type="checkbox"/> Write down the steps needed to reach a correct answer <input type="checkbox"/> Show mathematically the whole method needed to reach a correct answer <input type="checkbox"/> Identify the misconception behind an incorrect answer in a worked solution and correct 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Use accurate mathematical key words when verbally explaining the method needed to reach a correct answer <input type="checkbox"/> Use accurate mathematical key words when writing down the correct steps to reach a correct answer <input type="checkbox"/> Generalise the method needed for particular questions 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Explain why a particular method works <input type="checkbox"/> Show how a particular method works <input type="checkbox"/> Use algebraic notation in order to generalise the method in any question
Term 2	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Describe at least one step needed towards getting a correct answer <input type="checkbox"/> Identify that an answer is incorrect in a worked solution <input type="checkbox"/> Correct mistakes is in a worked solution 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Explain verbally the method needed to reach a correct answer <input type="checkbox"/> Write down the steps needed to reach a correct answer <input type="checkbox"/> Show mathematically the whole method needed to reach a correct answer <input type="checkbox"/> Identify the misconception behind an incorrect answer in a worked solution and correct 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Use accurate mathematical key words when verbally explaining the method needed to reach a correct answer <input type="checkbox"/> Use accurate mathematical key words when writing down the correct steps to reach a correct answer <input type="checkbox"/> Generalise the method needed for particular questions 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Explain why a particular method works <input type="checkbox"/> Show how a particular method works <input type="checkbox"/> Use algebraic notation in order to generalise the method in any question
Term 3	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Describe at least one step needed towards getting a correct answer <input type="checkbox"/> Identify that an answer is incorrect in a worked solution <input type="checkbox"/> Correct mistakes is in a worked solution 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Explain verbally the method needed to reach a correct answer <input type="checkbox"/> Write down the steps needed to reach a correct answer <input type="checkbox"/> Show mathematically the whole method needed to 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Use accurate mathematical key words when verbally explaining the method needed to reach a correct answer <input type="checkbox"/> Use accurate mathematical key words when writing down the correct steps to 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Explain why a particular method works <input type="checkbox"/> Show how a particular method works <input type="checkbox"/> Use algebraic notation in order to generalise the method in any question

Term 1

Term 2

Term 3

	EMERGING	SECURE	DEEPENING	MASTERING
Term 1	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Highlight keywords in a problem <input type="checkbox"/> Identify the key mathematical skill I need to use to start to solve a problem <input type="checkbox"/> Attempt to draw a diagram to represent a problem <input type="checkbox"/> Work by myself to complete the correct first step in answering a problem 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identify multiple mathematical skills that I need to use to solve a problem <input type="checkbox"/> Work by myself to complete all correct steps in a multiple step problem <input type="checkbox"/> Draw a relevant diagram to help me start answering it 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Order the steps necessary in answering a multiple step problem <input type="checkbox"/> Present my method and solution to a problem clearly and accurately including a diagram and units when necessary 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identify and write down all the steps needed to solve a multiple step problem when more than one topic is needed <input type="checkbox"/> Present more than one method clearly and accurately <input type="checkbox"/> Answer a multiple step problem in the most efficient way
Term 2	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Highlight keywords in a problem <input type="checkbox"/> Identify the key mathematical skill I need to use to start to solve a problem <input type="checkbox"/> Attempt to draw a diagram to represent a problem <input type="checkbox"/> Work by myself to complete the correct first step in answering a problem 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identify multiple mathematical skills that I need to use to solve a problem <input type="checkbox"/> Work by myself to complete all correct steps in a multiple step problem <input type="checkbox"/> Draw a relevant diagram to help me start answering it 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Order the steps necessary in answering a multiple step problem <input type="checkbox"/> Present my method and solution to a problem clearly and accurately including a diagram and units when necessary 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identify and write down all the steps needed to solve a multiple step problem when more than one topic is needed <input type="checkbox"/> Present more than one method clearly and accurately <input type="checkbox"/> Answer a multiple step problem in the most efficient way
Term 3	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Highlight keywords in a problem <input type="checkbox"/> Identify the key mathematical skill I need to use to start to solve a problem <input type="checkbox"/> Attempt to draw a diagram to represent a problem <input type="checkbox"/> Work by myself to complete the correct first step in answering a problem 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identify multiple mathematical skills that I need to use to solve a problem <input type="checkbox"/> Work by myself to complete all correct steps in a multiple step problem <input type="checkbox"/> Draw a relevant diagram to help me start answering it 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Order the steps necessary in answering a multiple step problem <input type="checkbox"/> Present my method and solution to a problem clearly and accurately including a diagram and units when necessary 	<p>I can:</p> <ul style="list-style-type: none"> <input type="checkbox"/> Identify and write down all the steps needed to solve a multiple step problem when more than one topic is needed <input type="checkbox"/> Present more than one method clearly and accurately <input type="checkbox"/> Answer a multiple step problem in the most efficient way
